Quick review

mkdir: create a directory/folder

cd: change directory

vim / nano: create a file

pwd: print current working directory

ls: list file and directory

man: manual

Warm up a little bit

- Navigate to your **home directory** and **print the full path**

```
cd
```

```
pwd
```

- Navigate to our **workshop** directory

```
cd /lustre/haven/courses/EPP531-2019Su
```

- Navigate to **filesystem** directory

```
cd /lustre/haven/courses/EPP531-2019Su/filesystem
```

Let's look at the file structure

```
cd /lustre/haven/courses/EPP531-2019Su/filesystem
```

```
sh file_system_tree.sh
```

```
| -University_of_Tennessee
|   |--Chattanooga
|   |--Knoxville
|   |----Colleges
|   |-----Architecture_and_Design
|   |-----Arts_and_Science
|   |-----Communication_and_Information
|   |-----Education_Health_and_Human_Science
|   |-----Haslam_College_of_Business

|   |-----Law
|   |-----Nursing
|   |-----Social_Work
|   |-----Tickle_College_of_Engineering
|   |-----Veterinary_Medicine
|   |--Martin
```

This is your goal

| -University_of_Tennessee

| ---Chattanooga

| ---Knoxville

| ----Colleges

| -----Architecture_and_Design

| -----Arts_and_Science

| -----Communication_and_Information

| -----Education_Health_and_Human_Science

| ---Martin

Some hints

- **Navigate to filesystem directory**

```
cd /lustre/haven/courses/EPP531-2019Su/filesystem
```

- **Look at the filesystem structure**

```
sh file_system_tree.sh
```

- **Creat your own directory**

1. Navigate to your college directory
2. Make a directory named with your department name
3. Within your department directory, make a directory with your name.
4. Create a file named `feedback.txt` under the directory of your name.

WE APPRECIATE FOR YOUR FEEDBACKS
